

## Synergy 21 LED remote smart panel RGB/RGBW 4 zones \*Milight/Miboxer\*

The **4-Zone RGB/RGBW Smart Panel Remote Controller** is the ideal solution for modern and flexible lighting control. This innovative control panel allows you to precisely control your RGB and RGBW lighting and create different lighting scenes in up to four different zones.

This smart panel works with a voltage of 3V and requires two AAA batteries (not included). With a transmission frequency of 2400-2483.5MHz and the GFSK modulation method, the panel ensures a stable and reliable connection to your lighting devices. The transmission power of 6 dBm enables a control range of up to 30 metres, so you can conveniently adjust your lighting from a distance.

The extremely low standby power consumption of only 20uA guarantees a long battery life so that the Smart Panel is always ready for use. The compact and elegant design with a size of 86\*86mm fits seamlessly into any living or working environment and offers a user-friendly interface for easy operation.

With the **4-Zone RGB/RGBW Smart Panel**, you can easily adjust the colours and brightness of your lighting. Whether you want to create a relaxing, cosy atmosphere in the living room or a vibrant and colourful environment for a party, this smart panel gives you the flexibility to customise your lighting.
