- 1x RJ-11 Terminal Block			
- 2x USB 3.0 Connectors			

No. d'article: 183219
Numéro de fabricant: ALL-BM320

Using the ALLNET BM-310 G.Fast Master Modem in conjunction with the ALLNET ALL-BM300 G-Fast Slave Modem, leased lines can be implemented over a simple 2-wire copper line with a length of up to 500m. For short distances (approx. 200 meters) bandwidths of up to 1.5 Gig/s are possible.

Especially for demanding retrofits in an existing IT, this technology is the optimal solution to provide cost-effective, high-performance network applications with high data rates with minimal effort. Another large field of application are buildings that do not yet have any Lan cabling and this is due to the given building structure can not be implemented.
