Experience a new dimension in lighting with the **9W Dual White LED Light Bulb**. This advanced LED bulb not only offers an impressive **output of 9W**, but also operates at a **voltage of AC100~240V 50/60Hz**, making it a highly versatile lighting solution. The adjustable colour temperature of **2700-6500K** allows you to create the perfect atmosphere for any room and occasion.

With a **light output of 800-850LM** and an efficiency of **93LM/W**, this LED bulb provides a bright and clear light that is ideal for various applications. The **colour rendering index (CRI) of >80** ensures that colours appear natural and vibrant, making it the ideal choice for **living rooms, restaurants, bars** and many other environments.

The universal base type **E26 / E27 / B22** and the wide **beam angle of 180°** ensure even light distribution, while the robust material made of **aluminium and PC** ensures durability and reliability. With a **control range of 30 metres**, this LED bulb offers flexible control options that can be seamlessly integrated into your smart home system.

The compact dimensions of **F59.5*122.5mm** make this lamp a space-saving solution that fits into almost any luminaire. Despite its high performance, it is energy efficient and consumes only **9 kWh/1000h**, making it an environmentally friendly choice for your lighting needs.

Enhance your lighting experience with the **9W Dual White LED Light Bulb** and enjoy the perfect combination of brightness, energy efficiency and versatility. Whether you want to create a warm and cosy atmosphere or illuminate a bright, functional space, this LED bulb is the ideal solution for your lighting needs.
