Rock Pi adapter SD card - MicroSD extension cable

This extension cable can be used to extend a micro SD slot. Thanks to the flexibility of the cable it is possible to route the slot into a housing, for example. The cables are particularly suitable for Raspberry Pi, Rock Pi etc.

Connection: micro SD plug -> micro SD socket / slot (with push/eject function)

For micro SD/SDHC cards

Colour: white;

Cable length: approx. 15cm
