

FriendlyELEC 3.5 inch LCD with Resistive Touch (W35B)

FriendlyARM 3.5" LCD with Resistive Touch (W35B)

EAN CODE

Introduction

Model: W35B

Introduction:

W35B is a 3.5" LCD with resistive touch developed by FriendlyARM. Its resolution is 320 x 240. It uses FriendlyARM's one-wire technology and its backlight is adjustable. It works with FriendlyARM's s2440, 6410, 210 boards and NanoPi 2 under Linux, WinCE and Android. Its driver is open source.

The W35B LCD module has a white ABS bezel with four mounting holes and four M3.5 screws. It can be easily deployed in various situations.

Note: we have a more detailed introduction to the one-wire technology in the appendix.
