

# VIPRE Core Defense Security Solution

The cybersecurity foundation required to defend your organization from evolving threats

**IN 2020, NEARLY 45% OF ALL DATA BREACHES WERE CAUSED BY HUMAN ERROR<sup>[1]</sup>, more than a 10% increase on the year prior<sup>[2]</sup>.** That's because cyber attacks have evolved from mass distributions of malware to a combination of more sophisticated techniques. Social engineering, phishing, and business email compromise cause the majority of breaches, with employees being the primary targets. And zero-day threats can evade

simplistic, signature-based detection. Today's SMBs need to secure the backbone of their organization—their data, devices, and people—all without breaking the bank.

Effective protection begins with **VIPRE Core Defense**, a fully-featured suite combining the foundational elements every security program should start with, in one simplified solution.

## CORE DEFENSE SERVICES:

### Security Awareness Training

Education to enhance your employees' security posture when faced with evolving cyberthreats such as phishing or business e-mail compromise

### Business VPN

Cloud-hosted business-class VPN and ZTNA solution to ensure your organization's remote workforce stays secure whether working from home or on-the-go

### Simplified Support

A singular vendor provides one point of contact for billing, technical support, and administrative assistance for a seamless experience

### Endpoint Security

Best-in-class endpoint protection—powered by machine learning and real-time behavioral analysis—to stop viruses and ransomware in their tracks

### Web Access Control

Content filtering restricts access to resource-wasting websites and inappropriate media with granular settings for users and groups

## VIPRE IN NUMBERS

20+

years of malware protection and cybersecurity

1M+

unique malware samples processed daily

20M+

endpoints protected

## KEY BUSINESS BENEFITS

- ✓ Slash device and employee downtime due to ransomware and phishing attacks on servers and workstations
- ✓ Build a smarter, safer workforce prepared to recognize online threats and cyber attacks
- ✓ Shield sensitive data from prying eyes while employees work remotely
- ✓ Enforce acceptable-use policies to reduce inefficiencies, complaints, and legal liabilities
- ✓ Streamline security operations with one touchpoint for technical and billing administration

As your company grows, managing a multitude of endpoint security solutions can become daunting—simplify your solution and provide truly effective protection with **VIPRE Core Defense**.

“WE’VE SAVED A SIGNIFICANT AMOUNT OF TIME ON MANAGEMENT TASKS AND POLICY CONFIGURATION. AND VIPRE’S EASE OF USE ALLOWS OUR ENTIRE TEAM TO BETTER UNDERSTAND, UTILIZE AND SUPPORT THE PRODUCT.”

**Ben Drummond**  
D2 Integrated Solutions

## ABOUT VIPRE

VIPRE is a leading provider of internet security solutions purpose-built to protect businesses, solution providers, and home users from costly and malicious cyber threats. With over twenty years of industry expertise, VIPRE has one of the world's largest threat intelligence clouds, delivering protection against today's most aggressive online threats. Our award-winning portfolio includes comprehensive endpoint and email security, along with threat intelligence for real-time malware analysis. VIPRE delivers easy-to-use, comprehensive layered defense through cloud-based and server security, with mobile interfaces that enable instant threat response.
