WiFi Convertor

FC CE RoHS COMPLIANT UL TÜV

Important: *Read All Instructions Prior to Installation*

Function introduction

Red LED indicator:
Under control

Green LED indicator:
Power normal

Blue LED indicator:
WiFi connected

DMX512 signal output   GND
D+
D-   WLAN   12V DC power input

Reset
Switch

Reset switch:
reset to factory setting
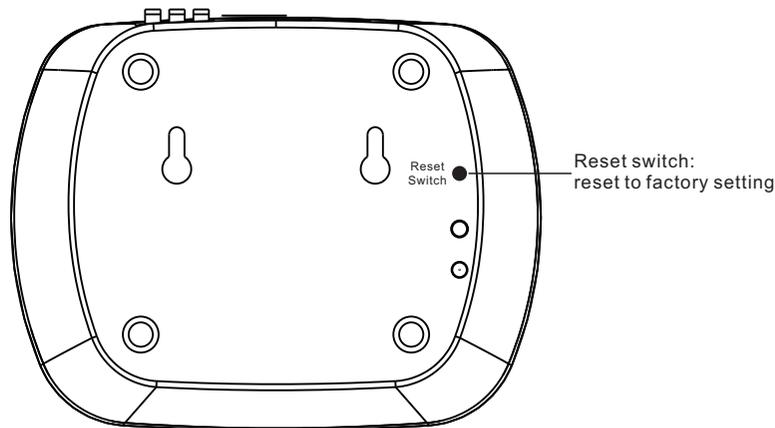

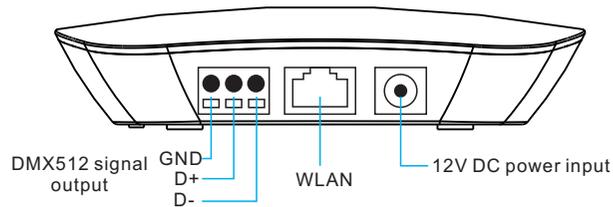

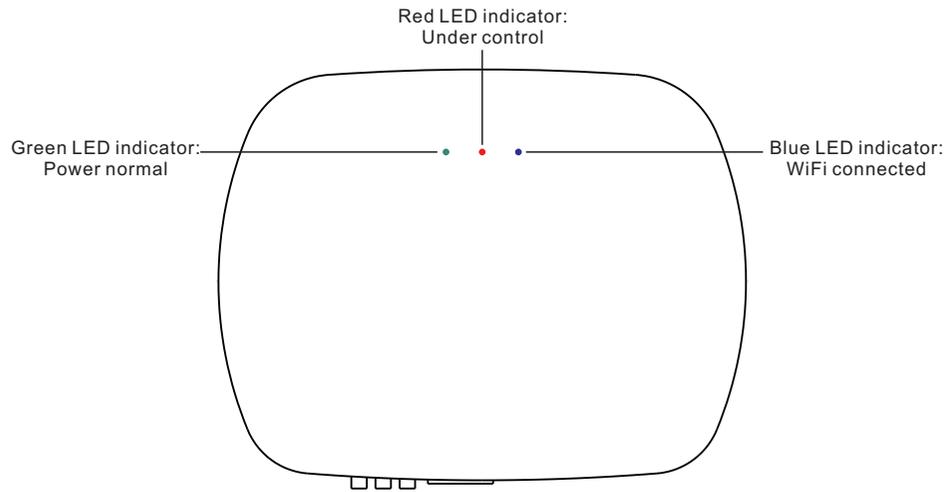

Product Data

| Output	RF+DMX512 signal
Operation Frequency	2.4G
Power Supply	12VDC
Operating temperature	0-40°C
Relative humidity	8% to 80%
Dimensions	110x85x24.2mm

• The convertor works with RF receiver series or DMX512 decoders to be controlled by IOS or Android system via WIFI.
• Waterproof grade: IP20

Safety & Warnings

• DO NOT install with power applied to device.
• DO NOT expose the device to moisture.

Wiring diagram

**Method 1:Connect your cell phone with your home net router(WiFi-RF)**

Operation

1.Download application from 'app store' or 'google play' by searching 'easylighting' or scanning following QR codes.

2.If the convertor has connected with router, then connect your cell phone to your router network.If the convertor did not connect with router, then connect your cell phone to the convertor network directly. (Password:0123456789)

3. Open the easylighting application and operate according the application manual.

Andriod   IOS

Set DMX Address:

Set DMX decoders' address as follows for multi-zone RF remote or EasyLighting APP:
DMX decoders with address 001 will be controlled by zone 1,
DMX decoders with address 005 will be controlled by zone 2,
DMX decoders with address 009 will be controlled by zone 3,
DMX decoders with address 013 will be controlled by zone 4,
DMX decoders with address 017 will be controlled by zone 5,
DMX decoders with address 021 will be controlled by zone 6,
DMX decoders with address 025 will be controlled by zone 7,
DMX decoders with address 029 will be controlled by zone 8.
Each zone can pair endless of DMX decoders if you set the address accordingly.
