

Article datasheet 7552

Article:	Kimtech Science Dry Cleaning Wipes
Art. No.:	7552
EAN:	0036000755206
Short text I:	Kimtech Science dry cleaning wipes for particularly demanding cleaning tasks and sensitive surfaces
Gross weight (kg):	0.165
Length (m):	0.119
Width (m):	0.119
Height (m):	0.073

The 1-ply precision wipes for light cleaning work are suitable for tasks such as cleaning sensitive glass and other equipment and surfaces. Objectives, microscope slides and optical instruments can be cleaned effortlessly. The soft, white wipes made of 100% pure fibers are chemically neutral, highly absorbent and can therefore be used together with solvents and chemicals.

Thanks to the portable pluck box, from which the wipes can be removed cleanly and quickly, the wipes are also suitable for mobile cleaning jobs. Suitable for use in laboratories in manufacturing and healthcare, as well as in industrial sectors such as optics, laser technology and electronics, plus low lint and soft - ideal conditions for demanding cleaning tasks. The wipes absorb liquids and dust and are antistatically packed to protect against lint and static discharge.
