

Reduce business risk, increase security and compliance for organizations of all sizes

VIPRE Security Awareness Training (SAT), powered by Inspired eLearning, is an easy to use, cloud-based learning solution that builds practical, cost-effective security awareness for an organization’s employees.

Say “goodbye” to stale, uninteresting security awareness training content and “hello” to VIPRE SAT. The award-winning content featured in each VIPRE SAT course has been developed with adult learning principles in mind. Engaging content teaches users to keep security top of mind in everything they do and empowers them maintain a strong defence of their company’s cybersecurity infrastructure.

VIPRE SAT Manager is a management portal designed for MSPs and offers the option to choose from Essentials, Advanced or Enterprise packages or curate a custom solution from the full library of courseware that best fits your clients’ needs.

- Ease of use with multi-tenancy management
- Turnkey, pre-curated content or roll-your-own courseware from the full course catalogue
- Evaluation of employee awareness over time via assessments and phish testing
- Actionable client-level reporting demonstrates ROI

Training Packages Include:

SAT Essentials

A turnkey learning program that allows resource-conscious organizations to deliver highly effective security awareness training without the expertise.

- Pre-set schedule consisting of quarterly courses, reinforcing ‘micro-learning’ courses and bi monthly phishing tests delivered to all users
- Minimal overhead allows small businesses to focus on day-today IT operations
- Value pricing for the small business owner

SAT Advanced

A comprehensive package of automated security awareness courseware combined with flexible access to phishing, vishing, and smishing simulations.

- Pre-set schedule consisting of bi-monthly courses, reinforcing ‘micro-learning’ courses and monthly phishing tests delivered to all users
- Scheduled campaigns, scheduled randomization, and auto-enrollment in reinforcement training—phishing education has never been more powerful with PhishProof™
- Customizable voicemail and cell phone training to combat vishing and smishing attempts

SAT Enterprise

A complete learning management system that delivers a full course library and the ability to customize courseware as well as simulations.

- Pre-packaged courseware with default templates for quick delivery
- Tailor training for specific departments or groups
- Full catalogue of general courses including security, privacy, ethics, compliance and access to microfocused courseware for diverse enterprises
- Customizable voicemail and cell phone training to combat vishing and smishing attempts
- Customize training paths, course scheduling, and phish test scheduling for complete control over the learning experience

Why Choose VIPRE SAT Manager?

Superior Content - Enterprise quality content for organizations of all sizes. Need training in multiple languages? Ask us about course availability.

Security Awareness in a Box - Perfect balance of phishing and behavioural remediation to identify at-risk employees through on-going simulations and continual reinforcement of best practices

Simple Reporting - Automated reports provide quick insight as to how well employees are doing to reduce risk and build a cyber-secure workplace

Automated Deployment - Automated deployment model delivers maximum impact with minimal administrative effort as phishing simulations are rolled out in a periodic drip style campaign

Integrated Phishing Simulations - Automated phishing simulation, included in all packages, provides monthly reports on how employees are improving and helps demonstrate ROI

Effective and Concise Delivery - Easily consumable, time-conscious and proven topics, enable your employees to develop core security awareness practices in a minimal amount of time

Relevant, Fresh Content - Content is king in engaging your employees for any kind of training. The adult education experts behind the Inspired eLearning content that powers VIPRE SAT understand how to keep viewers interested and engaged.
