

ALLNET Switch full managed 8 port Gigabit 130W / 8x PoE+ /

EAN CODE

Fanless 8-port Gigabit PoE Layer 2 Ethernet switch compliant with IEEE802.3at with 130W PoE budget ALL-SG8610PM

Highlights:

- 8-port 10/100/1000Mbps with full PoE support
- 2x SFP slots for optional MiniGBICS
- PoE power 4x a' 30 Watt (IEEE802.3at or 8x IEEE802.3af)
- FANLESS DESIGN with internal power supply unit
- Supports L2+ switching features such as 802.1Q VLAN, mirroring, port isolation, IGMP snooping, DHCP snooping, LLDP, POE+ management, IP source guard, ARP inspection, ACLs etc.
- Support of Spanning Tree STP(802.1D) and RSTP(802.1W) and MSTP(802.1s).
- Support advanced management via WEB, CLI, TELNET, SSH, SNMP.
- Support cable diagnosis and SFP DDM.
- Support PoE management, such as PoE schedule, PoE PD alive.
- Supports G.8032 quick ring protocol. Self recovery time <20ms.
- Support IEEE1588 v2, transparent clock (TC).
- Support DDM, SFP digital diagnostic monitoring
- Support IPV4 and IPV6 static routing functions.
- Support memory and CPU monitoring
- 4KV surge protection, 6KV contact/8KV air protection
- PoE budget 130W

Product Description:

The ALL-SG8610PM is a managed Layer 2+ Gigabit PoE switch that has intelligent PoE features to improve the availability of critical business applications. It offers IPv6/IPv4 management and an integrated L2+ Gigabit switching engine along with 8*10/100/1000BASE-T ports with 30 watts of 802.3at PoE+ and 2 Gigabit SFP slots. With a total power budget of up to 130W for various types of PoE applications, it provides fast, secure and cost-effective Power-over-Ethernet network solutions for IP surveillance in small businesses and enterprises.

The ALL-SG8610PM is programmed for advanced switch management features such as 802.1Q VLAN and Q-in-Q VLAN, Multiple Spanning Tree Protocol (MSTP), Loop and BPDU Guard, IGMP Snooping and MLD Snooping. In addition, Link Layer Discovery Protocol (LLDP) is included as a Layer 2 protocol to discover basic information about neighboring devices in the local broadcast domain.

| G: AC Power Input: 100~240V, 50~60Hz | |

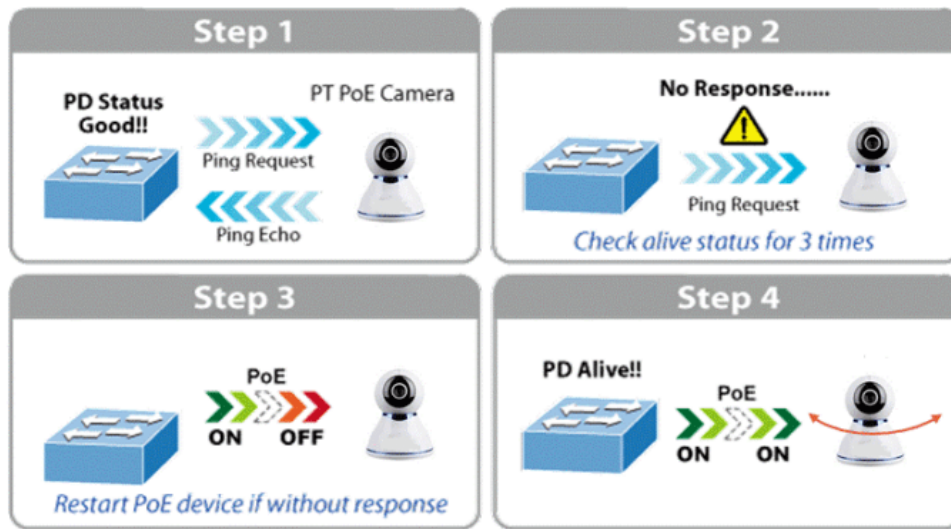

Rich PoE Management Function

Being the managed PoE switches for CCTV surveillance, wireless and VoIP networks, ALL-SG8610PM features the following special PoE management functions:

- PoE PD-alive check
- Scheduled power rebooting
- PoE schedule
- PoE usage monitoring
- Soft-reboot PoE Non-stop
- PoE port power feeding priority

Smart PoE PD-Alive Check

ALL-SG8610PM managed PoE switch can be configured to monitor connected PD status in real time. Once the PD stops working and responding, ALL-SG8610PM will resume the PoE port power and bring the PD back to work. They will greatly enhance the network reliability through the PoE port resetting the PD's power source and reducing administrator management burden.

PoE Schedule Function for Energy Saving

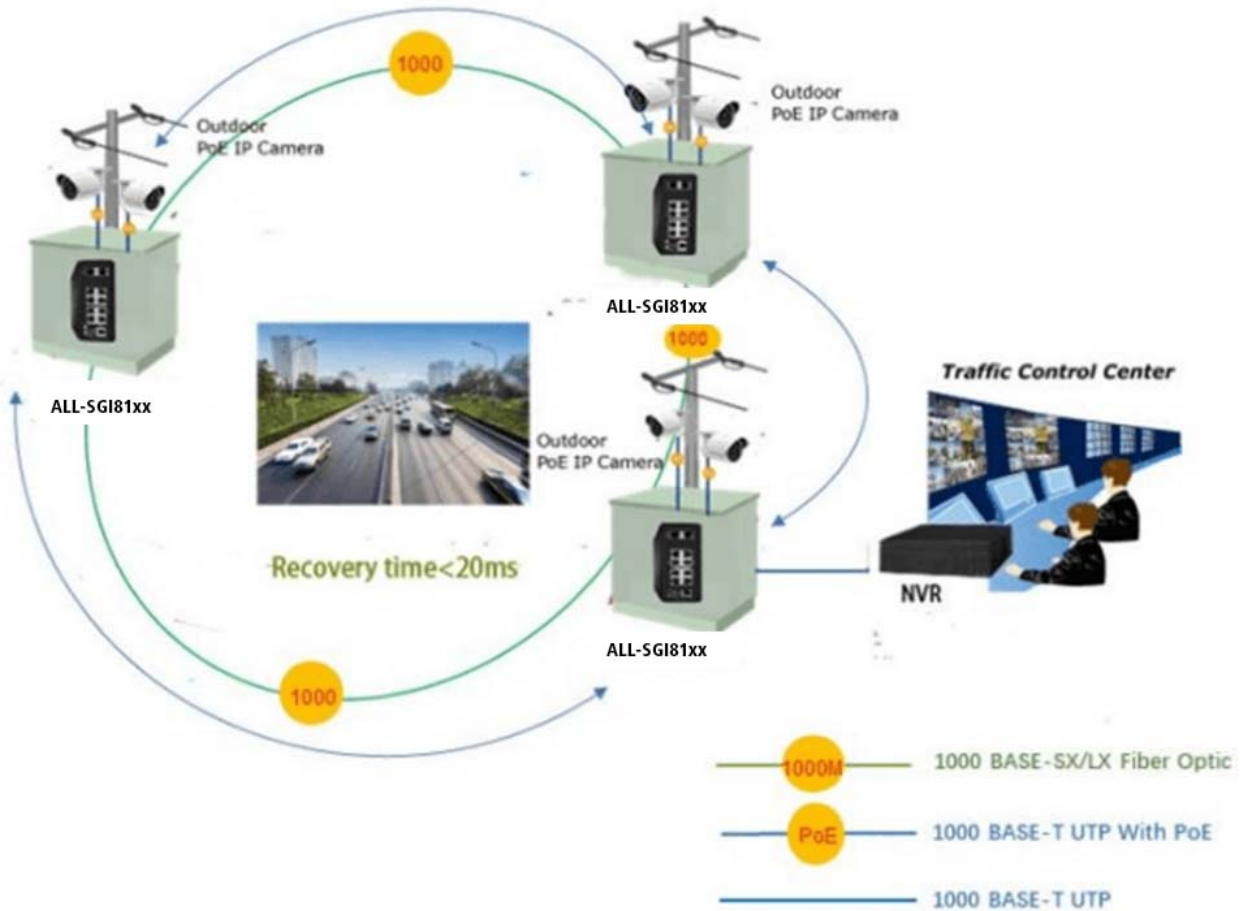

For environmental protection purpose, the ALL-SG8610PM switch Ethernet PoE can effectively control the power supply besides its capability of giving high watts power. The PoE schedule function helps to enable or disable PoE power feeding for each PoE port during specified time intervals and it is a powerful function to help SMBs or enterprises save power and money.

Scheduled PD Re-starting

The ALL-SG8610PM smart switch PoE allows each of the connected PoE IP cameras or PoE wireless access points to reboot at a specific time each week. Therefore, it will reduce the chance of IP camera or AP crash resulting from buffer overflow.

ERPS Ring for Video Transmission Redundancy

1588 Time Protocol for Industrial Computing Networks

The ALL-SG8610PM is ideal for telecom and Carrier Ethernet applications, supporting MEF service delivery and timing over packet solutions for IEEE 1588 and synchronous Ethernet.

Strong Layer 2 Features

The ALL-SG8610PM layer 2 Ethernet switch can be programmed for advanced Layer 2 switch management functions such as dynamic port link aggregation, 802.1Q tagged VLAN, Q-in-Q VLAN, private VLAN, Multiple Spanning Tree Protocol (MSTP), QoS, bandwidth control, IGMP snooping and MLD snooping. Via the aggregation of supporting ports, the ALL-SG8610PM allows the operation of a high-speed trunk group that comes with multiple ports and supports fail-over as well.

Efficient and Various Management Methods

For efficient management, the ALL-SG8610PM is equipped with console, Web and SNMP management interfaces.

With the built-in Web-based management interface, it offers an easy-to-use, platform-independent management and configuration facility.

For text-based management, it can be accessed via Telnet and the console port.

For standard-based monitor and management software, it offers SNMPv3 connection which encrypts the packet content at each session for secure remote management.

Intelligent PoE Switch SFP DDM Function

The ALL-SG8610PM supports SFP-DDM (digital diagnostic monitor) function that greatly helps network administrator to easily monitor real-time parameters of the SFP transceivers, such as optical output power, optical input power, temperature, laser bias current, and transceiver supply voltage.

Technical Details:

No. d'article: 193997
 Numéro de fabricant: ALL-SG8610PM

Model	ALL-SG8610PM
Copper Ports	8-10/100/1000BASE-T RJ45 auto-MDI/MDI-X ports
Fiber Ports	2x1G BASE-X SFP interfaces, supports 100M/1G Mbps dual mode
PoE Ports	1~8-802.3af/802.3at PoE Injector Ports
Console Ports	1 x RS-232-to-RJ45 serial port (115200, 8, N, 1)
Switch Architecture	Store-and-Forward
Switch Fabric	20 Gbps/non-blocking
Throughput	14.88Mpps @64 bytes
Address Table	8K entries
Share Data Buffer	4 Mb
Jumbo Frame	9600 Bytes
SDRAM	1Gb
Flash Memory	128Mb
Flow Control	IEEE 802.3x pause frame for full-duplex Back pressure for half-duplex
Reset Button	>2 sec.: Factory default and reset
Power Supply	100~240V AC, 50/60Hz, 4A (max.)
Power Consumption	Max.150 watts/1122 BTU
PoE Standards	IEEE 802.3af Power over Ethernet/PSE IEEE 802.3at Power over Ethernet Plus/PSE
PoE Power Supply Type	Per Port 52V DC, 300mA. Max. 15.4 watts (IEEE 802.3af) Per Port 52V DC, 600mA. Max. 30 watts (IEEE 802.3at)
PoE Budget	130W
LED Indicators	Power: Green Solid on- power work normal, off- power disconnected System: Green Blink -work normally, solid on- soft work abnormal, fast Blink – soft upgrade PoE: Yellow Solid on- PoE work normally, Off- PoE doesn't work, Blink - PoE overload

	<p>10/100/1000T RJ45 Interfaces (Port 1 to Port 8): 1000 LNK/ACT (Green) Blink - port connected with data transmission; Solid on- port connected without data transmission</p> <p>100/1000Mbps SFP Interfaces (Port 9 to Port 10): Green</p> <p>Blink - port connected with data transmission; Solid on- port connected without data transmission</p>
